

## **Mission of Springfield Catholic Schools**

Springfield Catholic Schools prepares and empowers students, in an atmosphere of academic excellence, with God's help, to be sent forth as disciples of the Catholic faith and models of service.

## **Springfield Catholic High School Profile of a Graduate**

### **I. Rooted in Faith & Spiritual Formation**

Before all else, the graduate recognizes that they are a beloved child of God. They not only know about the Catholic faith, but they also live it. This means they are comfortable in the silence of prayer and the communal joy of the Eucharist. They carry a well-formed conscience into a noisy world, relying on the Holy Spirit to guide their moral compass. As they move beyond our halls, they do so not just as students, but as intentional disciples who see their life's work as a response to God's call.

### **II. Intellectual Rigor & The Pursuit of Truth**

Academic excellence at Springfield Catholic is not about Grade Point Average (GPA) alone; it is about stewardship of the mind. Our graduates are critical thinkers who understand that faith and reason are tightly intertwined. They have the grit to tackle complex problems and the humility to keep learning. They are empowered communicators who can articulate their convictions with both clarity and charity, prepared to excel in higher education and the professional world.

### **III. A Heart for Service & Servant Leadership**

Following Christ's example, the graduate is a person for others. They don't see service as a graduation requirement to be checked off, but as a way of being. They are models of service who look for the face of Christ in the marginalized and the forgotten. Whether in their local parish or in the global community, they lead by lifting others up, proving that true power lies in the gift of oneself.
